GAYNOR URGED FOR FUSION PEACEMAKER

Ross Appleton Would Recast
Ticket and Drop Out
Mitchel.

FORGET IT, SAYS HAPGOOD
Mayor's Committeemen Figure
That He Will Get 225,-
000 Votes.

The first thing to come before the evening session was the platform. It was adopted without discussion and with a great show of enthusiasm. Then came the nominating speeches.

Alfred J. Talley, who had been summoned in a hurry from the New York Athletic Club, where he was at dinner, made the speech nominating Judge McCall for the fusion ticket. He sketched Mr. McCall's career in the usual fashion.

When he spoke Judge McCall's name the committeemen cheered, got up on their chairs and waved their hats and handkerchiefs. The band started "Three Cheers for the Red, White and Blue," and for a minute or so the meeting was in an uproar, but the foregone conclusion that Judge McCall was the choice of the leadership knocked the spontaneity out of the demonstration.

Robert F. Wagner, who is now president of the State Senate, seconded Judge McCall's name. Congressman James J. Fitzgerald of Brooklyn and Senator Bernard M. Patten of Queens also spoke for Judge McCall.

When they had finished Mr. Talley said: "Are there any other nominations?"

Goulden Takes Floor.
Congressman Goulden got up from among the Bronx committeemen, and for an instant a wave of expectation passed through the meeting. It was supposed that Mr. Goulden was about to name another man for the Mayoralty, but he quickly quieted suspicion.

"Mr. Chairman," he said, "The Bronx has not yet been heard from. I want to speak for Judge McCall."

As soon as he finished and it was apparent that no other nominations were to be made, the Assembly districts lined up with ten votes apiece, except in a single instance, for Judge McCall.

In the Third district of Brooklyn the spokesman for the delegation said that he could only give nine votes, because one man was absent. So the record stood 625 votes for Mr. McCall, and one abstention.

Michael F. McDermick of Brooklyn nominated Mr. Metz.

"He brings sunshine to the bowl of sorrow," said Mr. McDermick.

Congressman Henry M. Goldfogel, Speaker Alfred E. Smith of the Assembly, who sat next to Charles F. Murphy, John M. Tierney of the Bronx and John F. Klein of Queens, seconded the nomination of Mr. Metz.

Mitchel Names Goulden.
Richard H. Mitchell of the Bronx nominated Congressman Goulden and John F. McIntyre and Senator Henry P. Velte seconded his nomination. The vote for Mr. Metz and Mr. Goulden was the same as the vote for Judge McCall.

While Charles F. Murphy was talking to his leaders in the intermission William H. Chesbrough, chairman of the City Economy League, came to see him. "Mr. Chesbrough would like to suggest to me that Robert E. Dowling should be named for Comptroller," Mr. Murphy explained afterward. "Mr. Chesbrough told that the choice was in the hands of the committeemen."

It was reported also that a committee representing one of the Mayor leagues had called to see Mr. Murphy, but he said he knew nothing of their visit.

MORE DESIGNATIONS BY MOOSE.
Trade With the Republicans in 28th Assembly District.

The Progressives made designations in the following districts last night:

ALDERMANIC.
Dist. 34 Adolf Wagner. Dist. 35 Henry Jarvis.
Dist. 36 George Johnson. Dist. 37 Harry Cohen.

ASSEMBLY.
Dist. 1 William D. Howell. Dist. 2 Otto Henschel.
Dist. 3 The Republicans of the Twenty-eighth Assembly district wrapped support with the Progressives last night in making their designations. George E. Finlater, a Progressive, who ran for Assemblyman last year, was designated for the Assembly and Frederick Trau, a Republican, was designated for Alderman and endorsed by the Progressives.

Brooklyn Designations.
The following designations were made in Brooklyn yesterday:

Republicans.
Dist. 9 William J. McRoberts. P. ALDERMEN.
Dist. 10 Edw. B. Valentine. Dist. 11 Edw. B. Valentine.
Dist. 12 James M. Manne.

Progressives.
Dist. 13 Wm. B. Sanford. Dist. 14 Thos. F. Thornton.
Dist. 15 Renominated.

BIG GOLD STRIKE IN ALASKA.
Twenty Dump Cart Loads of Earth
Produce \$150 Worth.

MOOSE, Alaska, Aug. 23.—The most important gold strike in the vicinity of Nome since the discovery of the third beach claim has been made on Golden Cow line, where twenty dump cart loads produced \$150 worth of gold dust.

A rich strike also has been made on Manila Creek.

NO SLATE IN BROOKLYN.
Democrats to Make Borough and County Designations to-morrow.

The Brooklyn democrats will make their designations for borough and county offices at Sangerborn Hall to-morrow night.

So far, according to John H. McCoey, the county leader, nothing definite has yet been determined in regard to the slate except the renomination of Burroughs Ketchum, and its makeup is likely to await the conference of the executive committee called for to-morrow afternoon.

Half a dozen names at least have been under discussion for the Borough President to run against Lewis H. Pounds, who has been already named by the Republicans. Progressives and Independence League. They include Arthur S. Somers, John F. Clarke, Edward Riegelman and Arthur M. Sullivan, and an equally large list of supposed available candidates for each of the other offices.

Sylvan Levy, one of Mr. McCoey's most active Democratic constituents in the Eighteenth Assembly district, got one of the places on the county ticket. There has been much speculation in Bull Moose circles as to whether the Democratic renomination of Ketchum by the Progressives by accepting one of his candidates.

TAMMANY PLATFORM STRONG FOR ECONOMY CONGRESS MAY TURN ITS GUNS ON SULZER

Holding Down Expenditure Is
Made Leading Issue, and Fusion
Record Is Condemned.

MITCHEL HIT FOR SUBWAYS
Responsible Party Government
Contrasted With Weak
Fabric of Opposition.

The Tammany platform adopted last night for the purpose of the city campaign calls for right economy, tax reduction, the speedy construction of subways, an extension of the merit system in the civil service, and the divorce of the police from the duty of carrying out the executive, vice and gambling laws.

This last provision is in line with the recommendation of the Wagner Senate committee which investigated police conditions in New York last spring, that a separate department be created for the suppression of evils which have been the fruitful source of corruption in the Police Department.

The platform provided also for the extension of the merit system to public employees, almost identical with one in the fusion platform. The Tammany men, in terms similar to those used by the fusionists, call also for the rigid enforcement of the right hour law and the equal pay law on municipal work.

This is the platform as it was adopted last night.

The Democratic party of the city of New York, through its duly constituted representatives here assembled, renewing its declaration of loyalty to the historic principles and policies of the Democratic party, adopts the following platform:

Economy of Administration.—The existing financial condition of the city requires immediate and rigid economy. The need for this cannot be overstated, and the Democratic party pledges itself during the next administration to take drastic and immediate action to that end. The city budget of the city should not be increased except for the absolutely essential improvements. Every unnecessary item should be eliminated from the annual budget.

The city debt now amounts to almost twelve hundred million dollars; the annual budget to almost two hundred millions. The Board of Estimate and the Board of Aldermen are charged by law with the responsibility for the city's current and permanent expenditures. Both these bodies during the last four years were controlled by fusion majorities.

Failure of Fusion Promises.
The members of the present majority in the Board of Estimate, who are now the candidates of the opposition for the election to the three most important municipal offices, have failed in their promises for economy made four years ago. They have increased the funded debt of the city by over \$300,000,000. They have increased the annual budget out of all proportion to the natural growth of the city by the addition of thirty millions. They have failed to solve many important civic problems. They have conducted expensive inquiries without result.

An administration should be held to the strictest accountability for the fulfillment of its promises, and by this test fusion governments have failed. They seek to exploit themselves by unnecessary and extravagant expenditures of public moneys has failed.

The responsible party government will solve our civic problems. A spirit of cooperation and a sincere desire to serve the public interest should be paramount to selfishness and personal ambition.

Taxation—Taxpayers and rent payers should be speedily relieved from the undue burden imposed upon them by inequality of assessments and overvaluation of real estate for the purpose of taxation.

New sources of city revenue should be devised with a view to lessening the tax now borne by real estate.

But the Board of Estimate, the city of New York is entitled to absolute self-government in local affairs without interference by the State Legislature. In compliance with the demand for this autonomy the Democratic Legislature at the last session enacted the home rule law giving every city of the State power to manage and control its local affairs. We believe that the powers conferred upon the city authorities by this measure are ample and complete and that it will prevent legislative interference by vicious mandatory enactments.

Mitchel Attacked.
Rapid Transit—John Purroy Mitchell, the candidate of the opposition for the office of Mayor, opposed the building of subways. He used every effort to block their construction. We pledge our candidates to the earliest completion of the new subway system now authorized and approved, and as soon as the finances of the city permit to extensions to districts for which adequate provision has not been made.

Development of Port—We recognize the fundamental relationship between the commercial interests of the port of New York and the welfare of the city and pledge ourselves to immediate vigorous efforts to promote and maintain the supremacy of the port.

Public Schools.—We commend the vigor and intelligence with which the present Board of Education is solving educational problems.

The work of the school should be adapted to the needs of the children and be done with less machinery and more simplicity. The course of study should not be rigid, but flexible, and should be revised with a view to the economic, social and industrial needs of the various communities within the city.

We believe in vocational training and day and evening schools.

We believe in the wider use of school buildings and in the maintenance of social centers when not required for the work of instructing the children. We pledge ourselves to use every effort to secure a seat in the schools for every child.

We pledge the candidates of the Democratic party to a non-political and non-factional, a liberal and efficient administration of the public schools.

Fire Prevention.—We pledge ourselves to the extension of the high pressure water system, the fireproof construction of buildings wherever possible, and to other fire protective and preventive measures, to the end that the great loss of life and property may be minimized, and a reduction in the cost of fire insurance secured for our citizens.

Civil Service.—We believe that for the promotion of greater efficiency employees in the civil service should be afforded protection from unjust removal and the merit system extended whenever practicable.

Labor.—We favor the strict observance and enforcement of the eight hour law and prevailing rate of wages law on all public works.

Markets.—We favor the development of a public market system.

Police.—We favor separating the suppression of gambling, disorderly houses and kindred vices from the Police Department and advocate passage of legislation for that purpose.

We pledge the candidates of the Democratic party to give to the city of New York at this critical period of its history an honest, efficient and economical administration.

and comments which are reprinted for mailing. His publicity bureau is working overtime.

It is plain from the talk of Gov. Sulzer's friends that he expects to put up such a defense before the court of impeachment that thirty-eight of the fifty-five members of the court will not vote to convict. The Governor's friends point out that it was a hard job to get the necessary majority of the 150 Assemblymen to vote for impeachment and their opinion is that it would be impossible for the Governor's political foes to get two-thirds of the fifty-six members of the impeachment court to vote to convict him. If the Governor has fifteen votes in the impeachment court he cannot be convicted.

Chester C. Platt, secretary to Gov. Sulzer, gave out the following statement today:

"Gov. Sulzer has never said to any one, directly or indirectly, anything in regard to the present political situation in Greater New York."

"Gov. Sulzer has read what appears in to-day's New York Times about Cuban matters. He counts the fullest publicity so far as those allegations concern him. Whatever he did to help Mr. Reilly was done as a matter of friendship. Ex-President Roosevelt, ex-Secretary of State Root and ex-Secretary of War Taft are familiar with all the circumstances; they passed upon the case and they decided in favor of Mr. Reilly. These matters are of record in the War Department and the Department of State in Washington."

"Mr. Sulzer has always been the consistent friend of Cuba and of the Cuban people. He has never been interested, however, directly or indirectly in any Cuban contract or any Cuban financial matters."

"Mr. Sulzer is not concerned in any way with the local controversy now pending between Reilly and Frias and Bishop Broderick."

Secretary Platt was not present at talks between Gov. Sulzer and some of his friends at various times when the Governor told them that no matter what the verdict of the court of impeachment he would stump every street corner in New York city to aid the election of John Purroy Mitchell as Mayor.

Acting Governor Glynn spent most of his time to-day in his shirt sleeves working in the editorial and composing rooms of his newspaper. He was at the Capitol for an hour this afternoon. He granted requisition papers to two officials from New Jersey for the extradition of Giuseppe Corrento and Eugene Britton on a charge of assault. Britton is under arrest at White Plains and Corrento is in the Tombs in New York city.

He received the minutes of the meetings of the boards of managers of several State institutions, which previously have been filed with Gov. Sulzer.

It was announced from Washington to-day that President Wilson had selected John A. Gleason of Albany as United States Attorney for the Northern district of New York to succeed George W. Curtis of Binghamton. Mr. Gleason's strong endorsement was from Mr. Glynn.

Upon the advice of Acting Governor Glynn Attorney-General Carmody to-day instructed William Travers Jerome to proceed to Sherbrooke, Canada, to handle the Thaw case for the State. Mr. Jerome will reach Sherbrooke to-morrow.

TO ASK MURPHY'S INDICTMENT

Sulzer's Albany Organ Has Some
Black Type Near Heads.

ALBANY, Aug. 24.—The Knickerbocker Press prints a story this morning which is headed:

"Grand Jury indictments of Murphy, Frawley and Levy to be asked on evidence prepared by eminent lawyers. Second chapter in exposure of plot to destroy Sulzer reveals amazing sensation; impeachment of Sulzer a vengeful subterfuge and incident calculated by Murphy to cloak with respectability diabolical conspiracy to turn people's money in unchecked golden stream into the already overflowing coffers of the dictator's criminal followers."

The Knickerbocker Press story says:

"Evidence is now being prepared by eminent lawyers, who are acting from the highest patriotic motives and without hire, which will be presented to a Grand Jury, and upon which indictments will be asked of Charles F. Murphy, boss of Tammany Hall; James J. Frawley, chairman of the joint investigating committee which framed up the impeachment proceedings against Gov. Sulzer; and Aaron J. Levy, Murphy leader of the Assembly, and perhaps others in the plot."

"The Knickerbocker Press is in a position to announce that this evidence against the three named men is so conclusive that no Grand Jury or District Attorney will dare or even desire to ignore it."

McGUIRE DECLINES TO RUN.

Tells Tammany Leaders He Doesn't
Want Their Nomination.

Eugene J. McGuire, the Democratic rebel in the Bronx, has told the Tammany leaders that he doesn't want the designation for the Assembly which he got from the regular organization in the Thirty-second district last Thursday night.

McGuire bolted last June, but some of his followers who had retained their membership in the organization joined with the regulars to designate him.

McGuire and the Republicans have put a borough and county ticket in the field against the fusionists.

day that President Wilson had selected John A. Gleason of Albany as United States Attorney for the Northern district of New York to succeed George W. Curtis of Binghamton. Mr. Gleason's strong endorsement was from Mr. Glynn.

Upon the advice of Acting Governor Glynn Attorney-General Carmody to-day instructed William Travers Jerome to proceed to Sherbrooke, Canada, to handle the Thaw case for the State. Mr. Jerome will reach Sherbrooke to-morrow.

"BARON" ACCUSED OF \$4,000 GEM THEFT

Warrant Out for Harry E.
Simonin, Well Known
at Newport.

PHILADELPHIA, Aug. 23.—Magistrate Harris has issued a warrant for the arrest of Harry H. Simonin, once a figure at Newport and Atlantic City. Simonin is accused of larceny.

Two years ago Simonin fell for \$50,000 and proceeded at once to spend it at the rate of \$1,000 a week. When his patrimony was gone he met and was befriended by an old college friend, Paul Oliver, member of a well known firm of wholesale grocers, who resides at 404 Spruce street, in one of the most exclusive sections of this city.

The Oliver went to Chelsea early in the summer and took Simonin with them. He was allowed the use of the family's automobile and made frequent trips to this city in the machine.

Mr. Oliver discovered a few weeks ago that his house here had been looted and an investigation made by private detectives disclosed the fact that Simonin had disposed of the jewels which had been stolen.

Mr. Oliver charged that the man whom he befriended disposed of jewelry valued at more than \$4,000, and after the evidence had been obtained a warrant was issued for Simonin's arrest. The search for the missing man led last week to Newport, but he had left there for Narragansett, and when that resort was visited he had disappeared again.

Four years ago Harry Simonin of Philadelphia took a trip abroad and returned as William Henri H. Simonin. He was quite willing to talk about the metamorphosis. He said his father had told him they were descended from a noble family, so he decided to go abroad and investigate his right to the title.

He also confided that his mother had given \$6,000 to him for the trip. He had had a fine time in Paris, and the money didn't last long. No he called for more money and got \$1,000, with this advice from his mother: "When you are near the end of this sum buy a ticket for America and then sail, for there will be no more money coming."

He said he thought he would be democratic and drop the title in America, "as it might not go well along Broadway." He was 22 years old at the time.

Arnold, Constable & Co.

FOUNDED 1827

Monday and Tuesday, a Superb Collection of ORIENTAL RUGS AND CARPETS

At Most Unusual Price Concessions

Oriental Rugs of Medium Size

Special lot of 200 fine antique Daghestan and Cabistan Rugs; exceptional qualities and colorings. Average size 4 x 6.

Formerly \$45.00 to \$75.00	Now	30.00, 40.00, 50.00
